

Practice transformation support to implement and sustain integrated behavioral health care

Organizational Readiness

- Support, empower, and engage leadership
- Optimize revenue and EMR functionality
- Establish new care team roles and advance foundational knowledge

Core Team Workflows

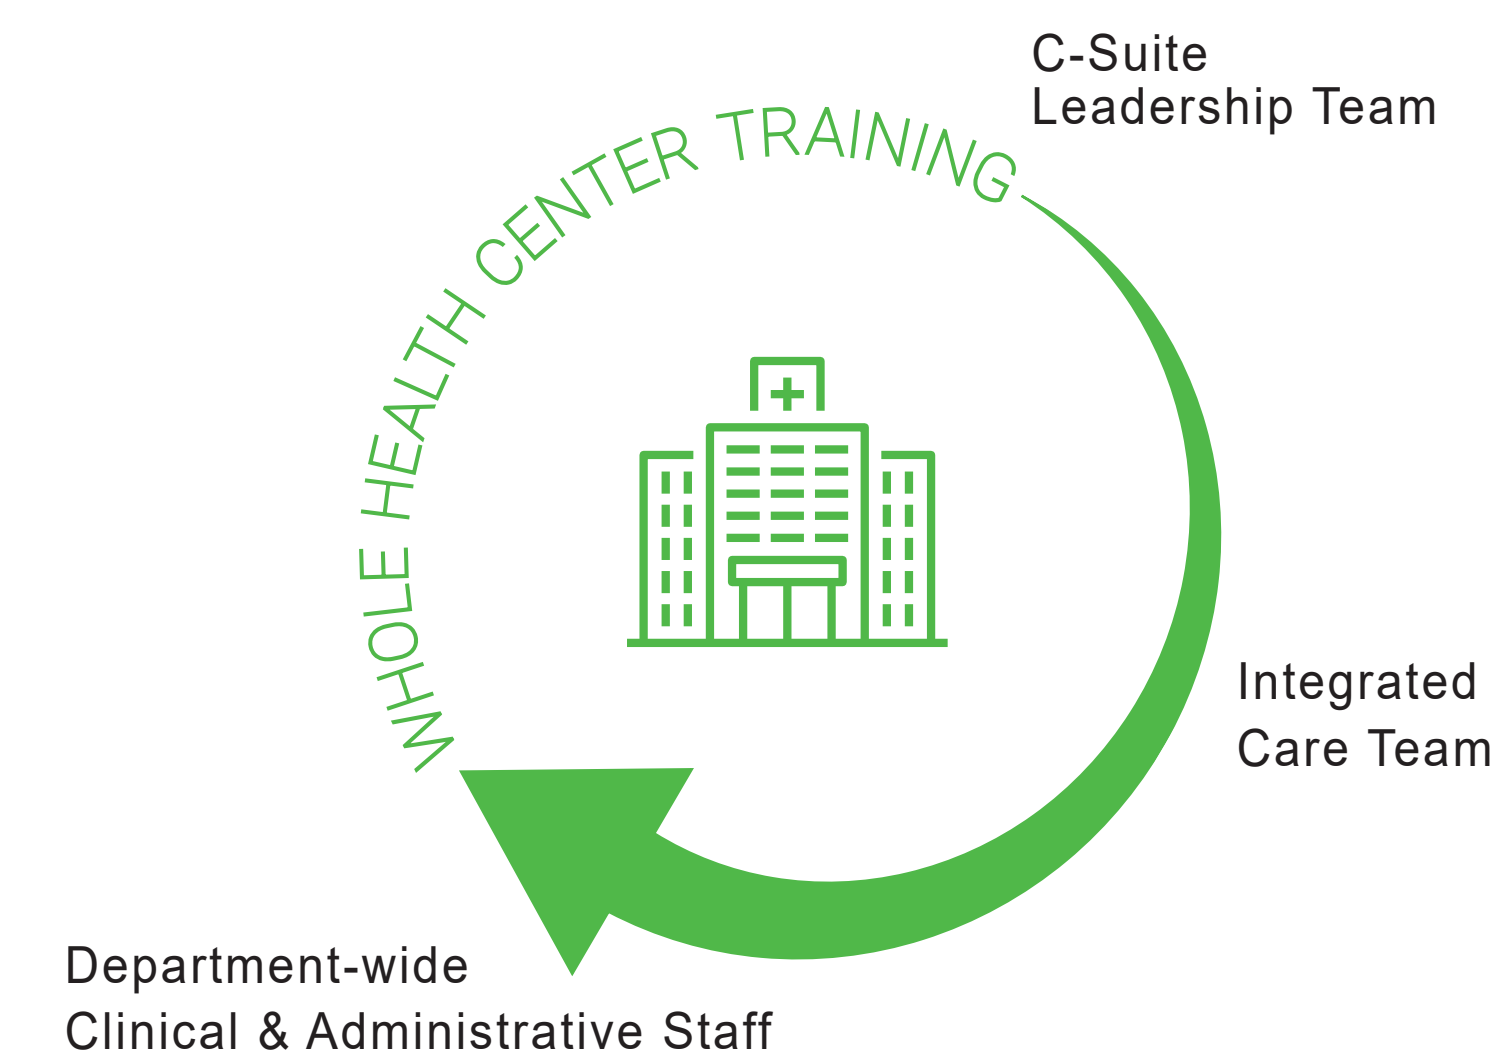

- Universal preventive visit
- Universal screening for social, developmental, and behavioral needs
- Warm handoff to integrated team for team-based, collaborative care
- Clinical documentation for integrated behavioral health
- Care coordination and navigation to specialty services

Condition-Specific Workflows

- Perinatal mental health
- Infant and early childhood mental health
- Autism Spectrum Disorder
- ADHD
- Anxiety and Depression

Customized Technical Assistance

- Site-specific sessions to drive quality improvement and transformation
- Shared resources tailored to facilitate site-level adoption and adaptation
- Utilization of data to guide implementation and plan for sustainability

Practice Transformation Principles

- Data-driven to enhance outcomes
- Grounded in improvement and equity
- Adaptable to promote practice fit and sustainability
- Shared learning within peer networks
